DETAILED ACTION

Claim Rejections - 35 USC § 102

1. Claims 1-25 are rejected under 35 U.S.C. 102(b) as being anticipated by Wada et al. (US 5,760,080) for the reasons set forth in item 5 of the Office action mailed 1/4/2006.
2. Claims 1-25 are rejected under 35 U.S.C. 102(b) as being anticipated by Carrico et al. (WO 98/52979) for the reasons set forth in item 6 of the Office action mailed 1/4/2006.
3. Applicants' arguments filed 4/7/2006 have been fully considered but they are not persuasive. Applicants argue that the references do not anticipate the claims because the reference has used a single neutralization agent. However, the claims are not directed to a process of neutralizing a polymer, but rather to the polymer itself. Therefore, product-by-process limitations need not be found in a prior art reference provided the polymer limitations are met. In support of alleged distinctness of the specifically claimed polymer properties, applicants rely on comparative examples stated to be described in the specification at pages 23-26 and in Table 1. The specification has been reviewed, but no comparative examples can be found, and therefore applicants' argument cannot be evaluated.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

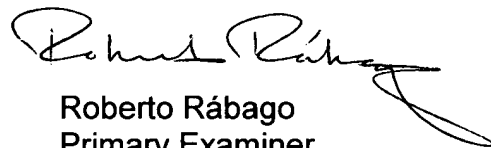

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
